

# Palintest® Pocket DPD Free & Total Chlorine Kit

## Pocket DPD Free & Total Chlorine Measurement Kits

DPD Pocket Kits allow simple and inexpensive measurement of Free & Total chlorine content in potable water. By adding a re-agent tablet to a water sample and mixing, in a few seconds the sample can be compared to the coloured comparison chart for the level of chlorine present.

### Features:

- Simple methods for use by all users
- Tablet reagents for long storage - ideal for intermittent or occasional use
- Complete kit containing all required items - no additional items required to start testing straight away
- Measures between 0-2 mg/L  $CL_2$
- Each kit is supplied with 50 DPD 1 & 50 DPD 3 tablets
