

# Palintest® Chlorocol (Chlorine) Test Kit

## Chlorocol (Chlorine) Test Kits

Chlorocol Pocket Test Kits allow simple and inexpensive measurement of chlorine residual in a wide range of water testing purposes. By adding a re-agent tablet to a water sample and mixing, in a few seconds the sample can be compared to the colour comparison chart for the level of chlorine present.

Features:

- Simple methods for use by all users
- Tablet reagents for long storage - ideal for intermittent or occasional use
- Complete kit containing all required items - no additional items required to start testing straight away
- Measures between 0-50 mg/L  $CL_2$
- Each kit is supplied with 50 Chlorocol tablets

# Chlorocol Tablets

## Chlorocol (Chlorine) Tablets

Contains 50 Chlorocol (Chlorine) tablets per box
