

HANNA® Pocket EC/TDS and pH Tester (High Range)

HI-98130 Pocket EC/TDS and pH Tester, High Range

The Hanna Pocket tester offers highly accurate measurement of pH, conductivity, total dissolved solids & temperature. The waterproof meter is ideal for daily water quality monitoring. Supplied with pH Electrode, Electrode Removal Tool, Batteries, Instructions.

Features:

- High range 0.00 to 20.00 mS/cm; 0 to 10.00 ppt
- Automatic 1 or 2 point pH calibration
- Rubberised keyboard
- Quick and easy to operate
- Easy switch between Celsius & Fahrenheit readouts
- HOLD function
- Easy to replace pH electrode cartridge with sturdy snap-in connector means there are no pins to bend or break
- Large LCD display
- pH and temperature displayed simultaneously
- Automatic temperature compensation
- BEPS Battery Error Prevention System
- Floating waterproof casing with tactile grip makes testing easier and less of a headache
- Removable safety cap

Benefits:

- This waterproof combination tester has an easy to read display and automatic shut-off
- pH and EC/TDS readings are automatically temperature compensated
- The EC/TDS conversion factor is user selectable as well as the temperature compensation coefficient
- Features a replaceable pH electrode cartridge together with an EC/TDS graphite electrode
- Automatic shut-off helps preserve battery life
- Replaceable pH cartridge extends life of the tester - when pH sensor is exhausted, simply replace it with a new one
- Calibrate direct into Hanna buffer solution sachet
